NEW IN 2017

Central Laborers' Welfare Fund will be transitioning to CVS/Caremark as its pharmacy benefit manager effective January 1, 2017. Although your co-payments will not go up, there will be changes implemented to better manage the utilization and your costs. In addition, you will receive **new Prescription Benefit cards** which you will need to present to your pharmacy when purchasing medication on or after January 1, 2017. If you encounter problems, help is just a phone call away. You may contact CVS/Caremark customer care at 1-866-818-6911 or call the Fund Office at 1-800-252-6571.

PLEASE REMEMBER TO PRESENT YOUR NEW PRESCRIPTION BENEFIT CARD TO YOUR PHARMACY WHEN YOU FILL YOUR FIRST PRESCRIPTION IN 2017.

Co-payments

Q: Will my co-payments change?

A: Yes and No. If you currently fill your maintenance drug prescriptions through mail order or at a CVS pharmacy, you will still be able to purchase a 90-day supply of your medication for two (2) co-payments. However, if you use any other pharmacy besides CVS mail order or a CVS retail pharmacy for your maintenance drug purchases (90-day supplies) in 2017, your prescription re-fill will be reduced to a 30-day supply and you will be required to make a co-payment on each 30-day supply of medication you purchase.

To switch your prescriptions to CVS mail order or a CVS retail pharmacy, you may call CVS/Caremark at 1-866-818-6911 , visit a CVS retail pharmacy or ask your physician to provide a new prescription to CVS mail order or your local CVS pharmacy.

AUTHORIZATIONS

Q: What if I have a prior authorization on file allowing me to purchase an otherwise restricted medication?

A: If you have a prior authorization in place, that will transition to CVS/Caremark automatically. Only in situations where a Non-Formulary medication is being used, will you be notified that a medication change will be required. CVS/Caremark, 1-866-818-6911, will be available to assist you with any questions or concerns you may have regarding your medication authorizations after January 1, 2017.

THE FORMULARY

Q: Will the medications allowed on the Drug Formulary change?

A: Yes, your list of covered drugs will change. Some products may not be covered or are excluded from the CVS/Caremark formulary. Generics will be considered the first line of prescribing. If you are currently taking an excluded drug, it is important to discuss this with your doctor so going forward, he or she can prescribe an alternative covered option. To learn more about your covered drug options, visit www.caremark.com/acsdruglist.

PHARMACY NETWORK

Q: Am I restricted to purchase my prescriptions at CVS pharmacies?

A: No, a national network of pharmacies will be available to you through your CVS/Caremark plan. That network includes most major chains, with the exception of Walmart and Sam's Club, meaning that you will not likely need to switch your prescriptions from where you currently have them filled. However, if you want to transfer prescription(s) to a CVS pharmacy retail location, you may do so from www.cvs.com or you may call or visit your local CVS pharmacy, provide basic information regarding your current pharmacy and the prescription you wish to transfer and the CVS pharmacy representative will assist in getting all your prescriptions moved for you.
